

LET'S MAKE A SCENE!

NORTH STAR FILM ALLIANCE LAUNCH

American Film Market

12.00 — 1.30pm - Saturday, November 9th 2019

Spotlight Event on the Venice Stage
at the Loews Hotel Santa Monica Beach

Please join us on the first Saturday of the AFM, for the November 9th launch of a unique North European alliance which offers an unparalleled menu of content and production incentives to film makers. Diverse locations and advanced production technology and communications are all supported by experienced,

English speaking crew and specialists. The NSFA region is home to the world's best drone pilots. 4G and 5G coverage can be expected, even in the middle of an untouched forest, and business transactions for foreign companies have the highest industry satisfaction ratings.

A TASTE OF THE REGION

A light lunch menu will feature a sample of regional specialty drinks to celebrate the variety the North Star region offers.

A visual presentation, introducing the benefits of the Alliance, will be followed by a panel covering the region's full range of financial and technical capabilities, throughout the countries of the North Star Film Alliance partners, Estonia, Latvia and Finland.

Speakers featured:

Jaakko Manninen

Moderator, Los Angeles Production Service

Originally from Finland, LA-based Jaakko has directed, produced and edited over 300 music videos and commercials. His most recent release is his first feature film "Someone Somewhere" which he produced and co-directed.

Ivo Felt

Producer Ivo Felt, Allfilm, who hosted local production for Christopher Nolan's "Tenet" in the region highlighting production possibilities in Estonia

Jānis Kalējs & Anni Wessman

Producer Jānis Kalējs, Film Angels Studio and Anni Wessman, Head of International, Audiovisual Producers Finland outlining examples of incentives and locations in the region

Tanel Toom & Marko Post

Oscar nominated Estonian film director, Tanel Toom and Finnish-Estonian post-production & VFX effects specialist Marko Post, Winter-Post detailing the region's filming and production opportunities
